Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1 – Summary of Significant Accounting Policies

Basis of Presentation and Preparation

The condensed consolidated financial statements include the accounts of Apple Inc. and its wholly owned subsidiaries (collectively “Apple” or the “Company”). In the opinion of the Company’s management, the condensed consolidated financial statements reflect all adjustments, which are normal and recurring in nature, necessary for fair financial statement presentation. The preparation of these condensed consolidated financial statements and accompanying notes in conformity with U.S. generally accepted accounting principles (“GAAP”) requires the use of management estimates. These condensed consolidated financial statements and accompanying notes should be read in conjunction with the Company’s annual consolidated financial statements and accompanying notes included in its Annual Report on Form 10-K for the fiscal year ended September 28, 2024 (the “2024 Form 10-K”).

The Company’s fiscal year is the 52- or 53-week period that ends on the last Saturday of September. An additional week is included in the first fiscal quarter every five or six years to realign the Company’s fiscal quarters with calendar quarters. The Company’s fiscal years 2025 and 2024 span 52 weeks each. Unless otherwise stated, references to particular years, quarters, months and periods refer to the Company’s fiscal years ended in September and the associated quarters, months and periods of those fiscal years.

Note 2 – Revenue

The following table shows disaggregated net sales, as well as the portion of total net sales that was previously deferred, for the three- and nine-month periods ended June 28, 2025 and June 29, 2024 (in millions):

As of June 28, 2025, the Company expects 66% of total deferred revenue to be realized in less than a year, 23% within one-to-two years, 9% within two-to-three years and 2% in greater than three years.

- (1) The valuation techniques used to measure the fair values of the Company's Level 2 financial instruments, which generally have counterparties with high credit ratings, are based on quoted market prices or model-driven valuations using significant inputs derived from or corroborated by observable market data.
- (2) As of September 28, 2024, cash and cash equivalents included \$2.6 billion held in escrow and restricted from general use. These restricted cash and cash equivalents were designated to settle the Company's obligation related to the 2016 European Commission (the "Commission") decision that Ireland granted state aid to the Company (the "State Aid Decision"), which was confirmed during the fourth quarter of 2024 by the European Court of Justice in a reversal of the 2020 judgment of the European General Court.
- (3) As of September 28, 2024, current marketable securities included \$13.2 billion held in escrow and restricted from general use. These restricted marketable securities were designated to settle the Company's obligation related to the State Aid Decision.

As of June 28, 2025, 82% of the Company's non-current marketable debt securities other than mortgage- and asset-backed securities had maturities between 1 and 5 years, 14% between 5 and 10 years, and 4% greater than 10 years. As of June 28, 2025, 12% of the Company's non-current mortgage- and asset-backed securities had maturities between 1 and 5 years, 11% between 5 and 10 years, and 77% greater than 10 years.

Derivative Instruments and Hedging

The Company may use derivative instruments to partially offset its business exposure to foreign exchange and interest rate risk. However, the Company may choose not to hedge certain exposures for a variety of reasons, including accounting considerations or the prohibitive economic cost of hedging particular exposures. There can be no assurance the hedges will offset more than a portion of the financial impact resulting from movements in foreign exchange or interest rates.

Foreign Exchange Rate Risk

To protect gross margins from fluctuations in foreign exchange rates, the Company may use forwards, options or other instruments, and may designate these instruments as cash flow hedges. The Company generally hedges portions of its forecasted foreign currency exposure associated with revenue and inventory purchases, typically for up to 12 months.

To protect the Company's foreign currency-denominated term debt or marketable securities from fluctuations in foreign exchange rates, the Company may use forwards, cross-currency swaps or other instruments. The Company designates these instruments as either cash flow or fair value hedges. As of June 28, 2025, the maximum length of time over which the Company is hedging its exposure to the variability in future cash flows for term debt-related foreign currency transactions is 17 years.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Item and other sections of this Quarterly Report on Form 10-Q ("Form 10-Q") contain forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. For example, statements in this Form 10-Q regarding the potential future impact of macroeconomic conditions and tariffs and other measures on the Company's business and results of operations are forward-looking statements. Forward-looking statements can also be identified by words such as "future," "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "will," "would," "could," "can," "may," and similar terms. Forward-looking statements are not guarantees of future performance and the Company's actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part I, Item 1A of the 2024 Form 10-K and Part II, Item 1A of this Form 10-Q, in each case under the heading "Risk Factors." The Company assumes no obligation to revise or update any forward-looking statements for any reason, except as required by law.

Unless otherwise stated, all information presented herein is based on the Company's fiscal calendar, and references to particular years, quarters, months or periods refer to the Company's fiscal years ended in September and the associated quarters, months and periods of those fiscal years.

The following discussion should be read in conjunction with the 2024 Form 10-K filed with the U.S. Securities and Exchange Commission (the "SEC") and the condensed consolidated financial statements and accompanying notes included in Part I, Item 1 of this Form 10-Q.

Available Information

The Company periodically provides certain information for investors on its corporate website, www.apple.com, and its investor relations website, investor.apple.com. This includes press releases and other information about financial performance, information on corporate governance, and details related to the Company's annual meeting of shareholders. The information contained on the websites referenced in this Form 10-Q is not incorporated by reference into this filing. Further, the Company's references to website URLs are intended to be inactive textual references only.

Business Seasonality and Product Introductions

The Company has historically experienced higher net sales in its first quarter compared to other quarters in its fiscal year due in part to seasonal holiday demand. Additionally, new product and service introductions can significantly impact net sales, cost of sales and operating expenses. The timing of product introductions can also impact the Company's net sales to its indirect distribution channels as these channels are filled with new inventory following a product launch, and channel inventory of an older product often declines as the launch of a newer product approaches. Net sales can also be affected when consumers and distributors anticipate a product introduction.

During the third quarter of 2025, the Company announced iOS 26, macOS® Tahoe 26, iPadOS® 26, watchOS® 26, visionOS® 26 and tvOS® 26.

Macroeconomic Conditions

Macroeconomic conditions, including inflation, interest rates and currency fluctuations, have directly and indirectly impacted, and could in the future materially impact, the Company's results of operations and financial condition.

Tariffs and Other Measures

Beginning in the second quarter of 2025, new tariffs were announced on imports to the U.S. ("U.S. Tariffs"), including additional tariffs on imports from China, India, Japan, South Korea, Taiwan, Vietnam and the European Union ("EU"), among others. In response, several countries have imposed, or threatened to impose, reciprocal tariffs on imports from the U.S. and other retaliatory measures. Various modifications to the U.S. Tariffs have been announced and further changes could be made in the future, which may include additional sector-based tariffs or other measures. For example, the U.S. Department of Commerce has initiated an investigation under Section 232 of the Trade Expansion Act of 1962, as amended, into, among other things, imports of semiconductors, semiconductor manufacturing equipment, and their derivative products, including downstream products that contain semiconductors. Tariffs and other measures that are applied to the Company's products or their components can have a material adverse impact on the Company's business, results of operations and financial condition, including impacting the Company's supply chain, the availability of rare earths and other raw materials and components, pricing and gross margin. The ultimate impact remains uncertain and will depend on several factors, including whether additional or incremental U.S. Tariffs or other measures are announced or imposed, to what extent other countries implement tariffs or other retaliatory measures in response, and the overall magnitude and duration of these measures. Trade and other international disputes can have an adverse impact on the overall macroeconomic environment and result in shifts and reductions in consumer spending and negative consumer sentiment for the Company's products and services, all of which can further adversely affect the Company's business and results of operations.

In November 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"), which will require the Company to disclose segment expenses that are significant and regularly provided to the Company's chief operating decision maker ("CODM"). In addition, ASU 2023-07 will require the Company to disclose the title and position of its CODM and how the CODM uses segment profit or loss information in assessing segment performance and deciding how to allocate resources. The Company will adopt ASU 2023-07 in its fourth quarter of 2025 using a retrospective transition method.

Critical Accounting Estimates

The preparation of financial statements and related disclosures in conformity with GAAP and the Company's discussion and analysis of its financial condition and operating results require the Company's management to make judgments, assumptions and estimates that affect the amounts reported. Note 1, "Summary of Significant Accounting Policies" of the Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q and in the Notes to Consolidated Financial Statements in Part II, Item 8 of the 2024 Form 10-K describe the significant accounting policies and methods used in the preparation of the Company's condensed consolidated financial statements. There have been no material changes to the Company's critical accounting estimates since the 2024 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the Company's market risk during the first nine months of 2025. For a discussion of the Company's exposure to market risk, refer to the Company's market risk disclosures set forth in Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" of the 2024 Form 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of the Company's management, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act were effective as of June 28, 2025 to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and (ii) accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the third quarter of 2025, which were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

Digital Markets Act Investigations

On March 25, 2024, the Commission announced that it had opened a formal noncompliance investigation against the Company under Article 5(4) of the EU Digital Markets Act (the “DMA”) (the “Article 5(4) Investigation”). The Article 5(4) Investigation relates to how developers may communicate and promote offers to end users for apps distributed through the App Store, as well as how developers may conclude contracts with those end users. On June 24, 2024, the Commission announced that it had opened an additional formal investigation against the Company regarding whether the Company’s new contractual requirements for third-party app developers and app marketplaces may violate the DMA (the “Article 6(4) Investigation”). On April 23, 2025, the Commission fined the Company €500 million in the Article 5(4) Investigation and issued a cease and desist order requiring the Company to remove technical and commercial restrictions that prevent developers from steering users to alternative distribution channels outside the App Store. The Company has appealed the Commission’s Article 5(4) decision. Also on April 23, 2025, the Commission issued preliminary findings in the Article 6(4) Investigation. If the Commission makes a final determination in the Article 6(4) Investigation that there has been a violation, it can issue a cease and desist order and may impose fines up to 10% of the Company’s annual worldwide net sales. The Commission may also seek to impose additional fines if it deems that the Company has violated a cease and desist order. The Company believes that it complies with the DMA and has continued to make changes to its compliance plan in response to feedback and engagement with the Commission.

Department of Justice Lawsuit

On March 21, 2024, the U.S. Department of Justice (the “DOJ”) and a number of state and district attorneys general filed a civil antitrust lawsuit in the U.S. District Court for the District of New Jersey against the Company alleging monopolization or attempted monopolization in the markets for “performance smartphones” and “smartphones” in violation of U.S. antitrust laws. The DOJ is seeking equitable relief to redress the alleged anticompetitive behavior. In addition, various civil litigation matters have been filed in state and federal courts in the U.S. alleging similar violations of U.S. antitrust laws and seeking monetary damages and other nonmonetary relief. The Company believes it has substantial defenses and intends to vigorously defend itself.

Epic Games

Epic Games, Inc. (“Epic”) filed a lawsuit in the U.S. District Court for the Northern District of California (the “California District Court”) against the Company alleging violations of federal and state antitrust laws and California’s unfair competition law based upon the Company’s operation of its App Store. The California District Court found that certain provisions of the Company’s App Review Guidelines violate California’s unfair competition law and issued an injunction (the “2021 Injunction”) enjoining the Company from prohibiting developers from including in their apps buttons, external links, or other calls to action that direct customers to purchasing mechanisms other than the Company’s in-app purchase system. The 2021 Injunction applies to apps on the U.S. storefronts of the iOS and iPadOS® App Stores. On January 16, 2024, the Company implemented a plan to comply with the 2021 Injunction and filed a statement of compliance with the California District Court. On September 30, 2024, the Company filed a motion with the California District Court to narrow or vacate the 2021 Injunction. On April 30, 2025, the California District Court found the Company to be in violation of the 2021 Injunction and enjoined the Company from imposing any commission or any fee on purchases that consumers make outside an app; restricting, conditioning, limiting, or prohibiting how developers guide consumers to purchases outside an app; or otherwise interfering with a consumer’s choice to proceed in or out of an app. The California District Court also denied the Company’s motion to narrow or vacate the 2021 Injunction and referred the Company to the U.S. Attorney for the Northern District of California for a determination whether criminal contempt proceedings are appropriate. The Company will continue to vigorously defend its actions and employees, and has appealed the California District Court’s most recent decision to the U.S. Court of Appeals for the Ninth Circuit (the “Ninth Circuit Court”). Although the Company’s request to stay the decision pending appeal was denied, the Ninth Circuit Court has agreed to consider the Company’s appeal on an expedited basis, with arguments scheduled for October 2025.

Other Legal Proceedings

The Company is subject to other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business. The Company settled certain matters during the third quarter of 2025 that did not individually or in the aggregate have a material impact on the Company’s financial condition or operating results. The outcome of litigation is inherently uncertain. If one or more legal matters were resolved against the Company in a reporting period for amounts above management’s expectations, the Company’s financial condition and operating results for that reporting period could be materially adversely affected.

Item 1A. Risk Factors

The Company's business, reputation, results of operations, financial condition and stock price can be affected by a number of factors, whether currently known or unknown, including those described in Part I, Item 1A of the 2024 Form 10-K and Part II, Item 1A of the Forms 10-Q for the quarters ended December 28, 2024 (the "first quarter 2025 Form 10-Q") and March 29, 2025 (the "second quarter 2025 Form 10-Q"), in each case under the heading "Risk Factors." When any one or more of these risks materialize from time to time, the Company's business, reputation, results of operations, financial condition and stock price can be materially and adversely affected. Except for the risk factors disclosed in Part II, Item 1A of the [first quarter 2025 Form 10-Q](#) and the [second quarter 2025 Form 10-Q](#), which are hereby incorporated by reference into this Part II, Item 1A of this Form 10-Q, there have been no material changes to the Company's risk factors since the 2024 Form 10-K.
